Product Description

Garcinol, a polyisoprenylated benzophenone isolated from *Garcinia indica*, is an inhibitor of the histone acetyltransferases (HATs) p300 and pCAF ($IC_{50} = 7$ and $5 \mu M$, respectively; Balasubramanyam et al.). It also inhibits the HAT Gcn5 in *Cryptococcus neoformans*, inducing temperature sensitivity and impairing growth (O'Meara et al.).

Molecular Name:	Garcinol
Alternative Names:	Camboginol
CAS Number:	78824-30-3
Chemical Formula:	$C_{38}H_{50}O_6$
Molecular Weight:	602.8 g/mol
Purity:	$\geq 95\%$
Chemical Name:	3-(3,4-dihydroxybenzoyl)-4-hydroxy-8,8-dimethyl-1,7-bis(3-methyl-2-buten-1-yl)-5-[(2S)-5-methyl-2-(1-methylethenyl)-4-hexen-1-yl]-bicyclo[3.3.1]non-3-ene-2,9-dione

Structure:

Properties

Physical Appearance:	A crystalline solid
Storage:	Product stable at $-20^{\circ}C$ as supplied. Protect from prolonged exposure to light. For product expiry date, please contact techsupport@stemcell.com .
Solubility:	· Absolute ethanol ≤ 30 mM · DMSO ≤ 30 mM For example, to prepare a 10 mM stock solution in DMSO, resuspend 1 mg in 166 μL of fresh DMSO.

Prepare stock solution fresh before use. Information regarding stability of small molecules in solution has rarely been reported, however, as a general guide we recommend storage in DMSO at $-20^{\circ}C$. Aliquot into working volumes to avoid repeated freeze-thaw cycles. The effect of storage of stock solution on compound performance should be tested for each application.

Compound has low solubility in aqueous media. For use as a cell culture supplement, stock solution should be diluted into culture medium immediately before use. Avoid final DMSO concentration above 0.1% due to potential cell toxicity.

Published Applications

MAINTENANCE AND SELF-RENEWAL

- Promotes ex vivo expansion of human hematopoietic stem cells (Nishino et al.).

DIFFERENTIATION

- Promotes neurogenesis in rat cortical progenitor cells (Weng et al.).

CANCER RESEARCH

- Induces apoptosis in several types of cancer cells and has anti-inflammatory actions (Koeberle et al.; Prasad et al.).
