## Product Description

Corning® Lambda® Plus Multi-Channel Pipettor is a 12-channel, 200 µL volumetric instrument designed to measure and transfer liquids precisely and safely. The fully autoclavable and UV-resistant multi-channel micropipette has been designed for a universal fit with all common brands of pipette tips, including Corning® Filtered Pipette Tips (STEMCELL Catalog #38031). Each pipettor has smooth plunger movement, low pipetting force, and an adjustable tip ejector. Volume can be adjusted using the thumb wheel or plunger button, and a locking mechanism can be used to prevent accidental volume changes. The pipettor comes with a key for easy in-house calibration, and has been designed to maintain calibration after repeated use and autoclaving.

200 µL 12-Channel pipettor (Corning Catalog #4086)

### APPLICATIONS

- Liquid handling
- RNA/DNA purification
- PCR
- Molecular biology

## Properties

**Storage:** Store at 15 - 25°C.

**Shelf Life:** Not applicable

## Features

### CAPACITY

- Minimum volume: 20 µL ± 3.0% accuracy
- Maximum volume: 200 µL ± 1.0% accuracy

### TIP SIZE

- Fits 200 µL tips

## Handling / Directions For Use

For complete instructions, refer to the Technical Manual: Corning® Lambda® Plus Single-channel, 8-channel, and 12-channel Pipettors Instruction Manual (Document #DX21630) available at [www.stemcell.com](http://www.stemcell.com) or contact us to request a copy.

### WARRANTY

Three-year warranty is provided by Corning Life Sciences, valid from date of purchase. Original purchase receipt is required. For the complete warranty statement, refer to the Technical Manual or contact us at [techsupport@stemcell.com](mailto:techsupport@stemcell.com).

## Notes and Tips

For chemical resistance information refer to the Technical Manual: Corning® Lambda® Plus Single-channel, 8-channel, and 12-channel Pipettors Instruction Manual or contact us at [techsupport@stemcell.com](mailto:techsupport@stemcell.com).
