Product Description

Costar® Microcentrifuge Tubes are ideal for a wide variety of sample preparation, sample storage, and sample centrifugation tasks. The flat-top snap caps ensure a secure seal, are easy to open and close, and withstand repeated use. Tubes feature graduated markings and a frosted side panel and cap for easy labeling. Low-binding polymer reduces protein and nucleic acid binding to tube. Costar® Microcentrifuge Tubes are shipped non-sterile and are autoclavable.
